Summary

I am a dedicated frontend developer with hands-on experience in building responsive, user-focused web applications. I specialize in React.js, JavaScript, and modern UI design. I enjoy solving real-world problems through clean, maintainable code and continually strive to improve my technical skills.

I am seeking an internship or entry-level front-end developer role where I can contribute to meaningful projects, collaborate with experienced developers, and grow professionally.

Experience

ENSINO R&D PVT. LMT.

3-Month Training Program

Learned Frontend Technologies like (html,css,bootstrap,javascript,react,mysql)

Projects

Calculator

Developed a fully functional calculator using HTML, CSS, JavaScript, and React.js. It supports accurate real-time calculations and features a clean, responsive UI optimized for smooth user interaction.

Weather App

Built a weather application using HTML, CSS, JavaScript, and React.js. Integrated API calls to fetch real-time weather data, enabling users to search for any city and instantly view current weather conditions.
